DICTUM - Sharpening Service

Our professional sharpening service will grind your blades within a few days and subsequently return them directly to you. Alternatively, you can arrange a collection date in one of our shops. If so, please note this on the order form. With the sharpened blades, you will receive your invoice, which you can conveniently pay one site or via bank transfer. Prices for our Sharpening Service are available on our homepage and on the following form.

Premium Sharpening Service

Sharpening pass

Products with this symbol can be sharpened by our experts free of charge. Send us the article you **bought in our shop** including the sharpening pass. We will return your sharpened cutting tool within a few days. You only have to pay the shipping costs.

**For more information on our general sharpening service call:
+49 (0)9931 4058-971**

ARTICLE	Price per item	Number	Sharpening pass attached	Note
Knives (full flat grind of hunting and carving knives only on request)	€7.00			
Axes, woodturning tools, carving and sculpting tools, household scissors	€9.00			
Chisels (only bevel and honing the back)	€6.00			
Chisels (bevel and back) <i>Includes trueing and polishing of the back*.</i>	€13.00		Cannot be combined with a sharpening pass.	
Plane blades (bevel and »Ruler trick«** on the back of the blade)	€6.00			
Plane blades (bevel and back) <i>Includes trueing and polishing of the back*.</i>	€13.00		Cannot be combined with a sharpening pass.	
Garden and hedge shears	€12.00			
Hairdressing scissors (only products from our range) and razors	€19.00			

For extremely time-consuming sharpening processes that require additional effort, we reserve the right add a surcharge of € 7.00. In this case, our sharpening expert will get in touch with you before starting the work. If products are sharpened prior to dispatch on the customer's instructions (special order), these are excluded from the right of return and exchange.

* When sharpening Japanese blades, the hollow grinding may be reduced depending on the original flatness of the back.

»Ruler trick« - **The Lie-Nielsen Method: A thin steel ruler is placed along the long edge of a fine-grit honing stone and the very tip of the back of the blade polished along the opposite long edge of the stone. See expert knowledge »Sharpening Plane Blades« at www.dictum.com ▶ Plus shipping charges (prices include VAT).
